**HELLA IS THE FIRST MANUFACTURER
TO RECEIVE CAPA APPROVAL TO
PARTICIPATE IN THE TIER 1
VERIFICATION PROGRAM**

HELLA IS THE FIRST MANUFACTURER TO RECEIVE CAPA APPROVAL TO PARTICIPATE IN THE TIER 1 VERIFICATION PROGRAM

Global automotive supplier HELLA is pleased to announce that it is the first manufacturer to receive CAPA approval to participate in Tier 1 Replacement Parts Verification Program, which is only available to Tier 1 suppliers who also produce an in-house, alternately branded version of car company original (CCO), or car company service (CCS) parts used for automotive repair.

CAPA Tier 1 Verified parts must demonstrate compliance to all applicable federal regulations. These efforts help to ensure there are no differences when a supplier changes production from manufacturing the car company parts to the Tier 1 branded version of the part identified by the CAPA Tier 1 Verified label. See verified parts in the following pages.

HELLA VEHICLE SPECIFIC LIGHTING

HELLA is a leading supplier to the Collision and General Repair Industry for vehicle-specific lighting with comprehensive market coverage. Thanks to our innovative powers, we're continuously expanding our product range of headlamps, lamps and interior lights.

HELLA VEHICLE SPECIFIC ELECTRONICS FOR THE COLLISION INDUSTRY

The amount of electronic components in vehicles is constantly growing, and it is estimated that they account for around 30% of all materials in a vehicle. HELLA product portfolio ranges from complex body electronics such as central control units and access systems to various electronics components, including sensors and vacuum pumps. We are also active in the rapidly growing energy management and driver assistance systems segments,
