# HERO Vehicle Overview

Ford F-150 (2019 - 2020)

# HERO

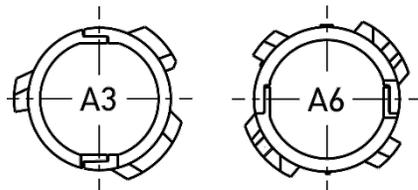

HELLA UNDERCOVER HIDEAWAY

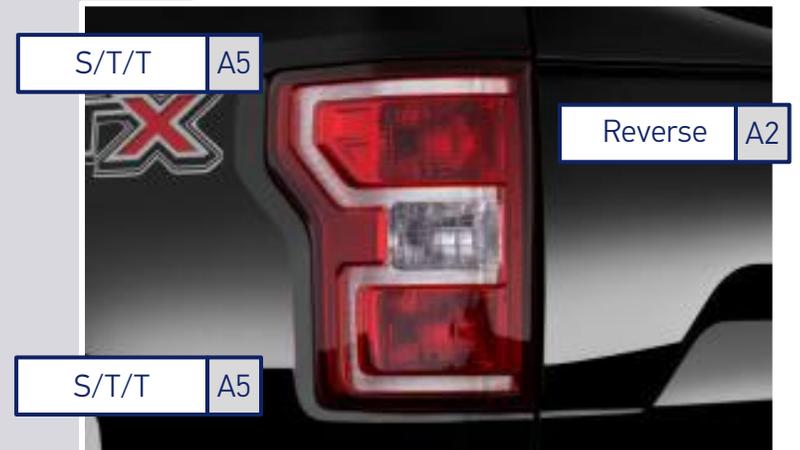

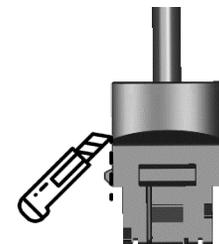

## IMPORTANT:

These Ford F-150 trucks use different OE bulb sockets at the front turn chamber.  
Before you place an order inspect your vehicle for the correct adapter. → A3 or A6 adapter

Information: In case you can't insert the HERO integration connector into the OE bulb sockets, cut off the tabs on the side. The connector will still grab the socket and will sit tight.

# HERO Vehicle Overview

Ford F-150 SSV / XL /ST-X 4x4 ( 2021 )

**HERO**  
HELLA UNDERCOVER HIDEAWAY

**IMPORTANT:**

The HERO install options shown above are only for the SSV, XL, ST-X 4x4 and the XLT Base model.

**XLT Chrome/Sport:** Front: Halogen Turn signal, Rear: LED Reverse light, Halogen S/T/T behind red lenses

**Lariat, King Ranch, Platinum, Limited and Raptor:** Front Turn: LED, Rear: all functions are LED

Ford Escape (2019 - 2022)

**HERO**  
HELLA UNDERCOVER HIDEAWAY

### INFORMATION:

To insert HERO in the front turn chamber of the 2020 Ford Escape headlight, you need to use adapter A6. You might have to slightly trim one tab on the headlight hole, to insert HERO properly.

Please note: This will not affect the headlight when returning it to the OE incandescent bulb.

The space behind the headlight is limited which makes the angle to insert the HERO very tight. Insert the HERO very cautious, to avoid ripping off the side LEDs on the Lighthouse.

# HERO Vehicle Overview

Chevy Tahoe (2015 - 2020)

**HERO**  
HELLA UNDERCOVER HIDEAWAY

Indicator: Turn Signal

Strobe light: Red/Blue

## HELLA's recommendation:

Use the Chevy adapter harness (PN: 358118371) for a smooth and clean HERO install in the Front Turn Signal. This harness works as a connecting link between the 8-pin OE plug on the headlight and the vehicle OE harness. It has a bulb socket attached, that gets the current for the turn signal (+/-) directly from the car.

→ HERO gets the OE signal without cutting wires or damage of OE components.

More information about this adapter harness on our website: [www.hellahero.com](http://www.hellahero.com)

# HERO Vehicle Overview

Chevy Tahoe/Suburban (2021 - 2023)

# HERO

HELLA UNDERCOVER HIDEAWAY

## HELLA's recommendation:

The PPV Police Edition comes with Incandescent bulbs for the front turn signal. This requires our Chevy headlight adapter harness (PN: 358118471) for a smooth and clean HERO install. This harness works as a connecting link between the 8-pin OE plug on the headlight and the vehicle OE harness. It has a bulb socket attached, that gets the current for the turn signal (+/-) directly from the car.

→ HERO gets the OE signal without cutting wires or damage of OE components.

More information about this adapter harness on our website: [www.hellahero.com](http://www.hellahero.com)

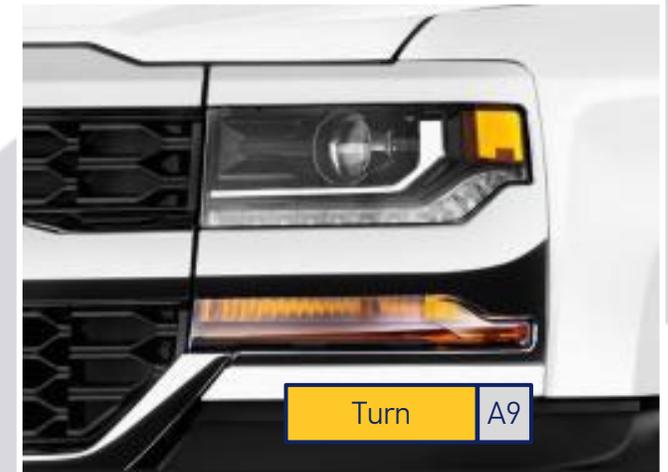

# HERO Vehicle Overview

Chevy Silverado 1500/2500/3500 (2017 - 2019)

**HERO**  
HELLA UNDERCOVER HIDEAWAY

## HELLA's recommendation:

Use the Chevy adapter harness (PN: 358118371) for a smooth and clean HERO install in the Front Turn Signal. This harness works as a connecting link between the 8-pin OE plug on the headlight and the vehicle OE harness. It has a bulb socket attached, that gets the current for the turn signal (+/-) directly from the car.

→ HERO gets the OE signal without cutting wires or damage of OE components.

# HERO Vehicle Overview

Chevy Silverado 1500 (2019 - 2020)

**HERO**  
HELLA UNDERCOVER HIDEAWAY

## IMPORTANT:

The new Chevy Silverado has 2 amber positions in the front.

- Top chamber: Park
- Bottom chamber: Park & Turn

You can use HERO in only one of the two chambers, because it is required to use one of the Chevy adapter harnesses (for Park: 358118371 / for Turn: 358118441) for the install.

More information about those on our website: [www.hellahero.com](http://www.hellahero.com)

# HERO Vehicle Overview

Chevy Silverado 1500 (2020 - 2023)

**HERO**  
HELLA UNDERCOVER HIDEAWAY

## HELLA's recommendation:

Use the Chevy adapter harness (PN: 358118441 & 358118481 for 21'-22') for a smooth and clean HERO install in the Front Turn Signal. This harness works as a connecting link between the 8-pin OE plug on the headlight and the vehicle OE harness. It has a bulb socket attached, that gets the current for the turn signal (+/-) directly from the car.

→ HERO gets the OE signal without cutting wires or damage of OE components.

**⚠** HEROs in the rear S/T/T light will lead to fast flashing bulbs. (under investigation)

More information about this adapter harness on our website: [www.hellahero.com](http://www.hellahero.com)

# HERO Vehicle Overview

Chevy Silverado 2500HD / 3500HD (2022 - 2023)

**HERO**  
HELLA UNDERCOVER HIDEAWAY

## HELLA's recommendation:

Use the Chevy adapter harness (PN: 358118481 for 22') for a smooth and clean HERO install in the Front Turn Signal. This harness works as a connecting link between the 8-pin OE plug on the headlight and the vehicle OE harness. It has a bulb socket attached, that gets the current for the turn signal (+/-) directly from the car.

→ HERO gets the OE signal without cutting wires or damage of OE components.

**⚠️ HEROs in the rear S/T/T light will lead to fast flashing bulbs.** (under investigation)

# HERO Vehicle Overview

Dodge Durango ( 2021 - 2023 )

**HERO**  
HELLA UNDERCOVER HIDEAWAY

## INFORMATION:

Our research shows that Dodge range operate in a different and unique way, in comparison with other vehicles - Different operation in terms of wattage/ohms in order to operate properly.

But unlike previous years, the Dodge Durango 21'-23' seems to operate properly with the current HERO Resistor Box.

*Application still under investigation*
